

What attracts more children and parents than pony rides? We don't know, that's why we offer this service to anyone hosting an event.

We can bring up to three ponies to your event for children to ride, love on and get their picture taken with.

If you are trying to raise funds, you probably do not want to pay for pony rides. That is just the situation that this service was created for. Instead of charging you for the time that we are giving rides, we can charge the riders (or their parents) per ride. If you supply us with a place to park our truck and trailer and some room to give rides, we can set up at your event. Then, all you have to do is advertise that you have pony rides available and watch the people come.
